

Introducing

# MILESTONE:

**A new online legal process tracker exclusively for ICPs and UIPs.**

A direct, secure and easy way to monitor the legal status of your utility project in real time.

## INNOVATION

### First of its kind

*Milestone* is the first online direct access portal of its kind in the ICP and UIP industry. The innovative service uses cutting edge technology and is pioneering the way in project administration and customer expectation management.

## SECURE AND SAFE

### Delivered by experts

*Milestone encrypts data to provide 100% peace of mind. Milestone* is delivered by experienced industry experts and a dedicated land rights department who have a proven track record of delivering the results you need.

## SAVING YOU TIME

### Proven track record

The expedited legal completion time on substations and expedited easements are averaging at five and three weeks respectively. A company record has been set for the completion of a land rights project for an asset connection being achieved at just seven days from the completed Design and Legal Information Form.

## INSTANT ACCESS

### Your data, when you want it

*Milestone* is available 24/7 and 365 days a year. The instant access nature of *Milestone* also easily accommodates an expedited service for time-sensitive projects. *Milestone* facilitates instant access to real-time reports.
